HUNTINGDON COUNTY SABBATH SCHOOL CONVENTION

Large Assemblage of Sab. School Workers.

Friends of the Cause in Council.

Interesting and Enthusiastic Demonstration.

Large Gathering of S. School Children.

Discussions, Reports, Addresses, Devotional Exercises, Music, Etc.

Reported by R. McDivitt, Esq.

OPENING EXERCISES.

The friends of the Sabbath School interests, and delegates from the different Sabbath Schools in the county, assembled in Convention, in the Court House, pursuant to the previously published notice, on Wednesday morning last at ten o'clock.

The meeting was called to order by K. A. Lovell, Esq., chairman of the committee of arrangements, who stated briefly the object of the meeting and invited the assembly to unite in singing the doxology, "Praise God from whom all blessings flow."

Rev. George A. Peltz, President of the Penna. State Sabbath School Association, offered a most fervent appeal to the Throne of Grace in behalf of the Convention and the object for which it had assembled; the musical choir in attendance favored the audience with the piece called "Happy Greeting," and a portion of the 11th Chapter of the Book of Deuteronomy, was read by Rev. M. K. Foster of Huntingdon, followed by prayer by Rev. J. M. Love of Alexandria.

ORGANIZATION.

After another piece of music by the choir, on motion of J. A. Brown, Esq., K. Allen Lovell, Esq., was chosen as chairman of the convention, who on taking the chair returned his thanks to the convention for the honor conferred and expressed the hope that the convention might be successful in arousing the members to increased zeal and activity in the cause of the Master.

G. Barton Armitage, D. M. Giles, James E Glasgow, and R McDivitt, Esqs., were appointed Secretaries.

COMMITTEES APPOINTED.

On motion of J R Simpson, Esq., resolved that the chair man appoint committees consisting of five persons each, one on enrolment, one on business, one on finance, one on permanent organization, one on digesting the reports of the schools of each township, and one on resolutions.

The following were then announced by the chair:

On Enrolment, W W Shiveley, John C Miller, Hugh Lindsay and Miles Zentmyer.

On Business, J R Simpson, Esq., Hon. D Clarkson, A G Ewing, Esq., Frank Greene and Dr. J D Deavor.

REPORTS FROM THE TOWNSHIPS.

The several townships and boroughs being called on to report through their delegates present, the condition of the schools in their immediate localities, responded as follows:

Alexandria borough—represented by John Porter, Esq. A Sabbath School was organized as long ago as 1823 on the Union principle, which was continued for 25 years, when a separate School was organized by the Methodist denomination, and subsequently one by the German Reformed church. All three in a prosperous condition.—Hardly a child in the place not attending some one of them; schools kept open summer and winter; a working interest amongst the parents, church members and pastors.

Barree—partially reported by Jonas Brooks. One interesting school, getting along well and prosperous.

Broad Top—J H Miller. School organized on the Union plan in 1859; getting along well; separate school organized by the Methodist congregation two years ago.

Birmingham—Jas T Owens. Two schools, Presbyterian and Methodist; good average attendance and well conducted.

Carbon—Rev. Palmer. School at Dudley in a flourishing condition, and doing well numerically and spiritually; organized about 12 years ago among the coal mines; have had difficulties to contend with; sometimes a house to meet in, sometimes none; when without a house, met under the apple trees; have been refused the use of the school houses for Sabbath School purposes, but accommodated by Mr. Watson, President of the road, with the use of the depot building; school has grown in interest and the boys and girls who were pupils twelve years ago, are now amongst the best of officers and teachers; have juvenile prayer-meeting the first Sabbath of every month; there should be six or seven other schools in the township.

Clay.—S. M'Vitty. Three Sabbath Schools in the borough of Three Springs, working successfully, with a good interest in each. Two in the township on the union plan. Two more required.

Franklin.—A. G. Ewing. Schools established in the township over forty years ago. Nine schools at present, well attended, and Sabbath school cause in good condition. Few families that do not send to some school. Appearances favorable for the future.

Huntingdon.—Wm. P. Orbison. Nine schools, generally well attended and in a flourishing condition. The Young Mens' Christian Association last year canvassed the town and found but few families that did not send to some school of those connected with any church or those who were not. Schools all in active operation.

Jackson.—Rev. Ely. Eight schools, with good officers and libraries, and in a flourishing condition. Churches enough to accommodate most of the schools.

Juniata.—Represented by a lady. One school in the township, on the union plan. Not working well. Denominational prejudices. Need three or four more schools in the township. Badly off for books; but two hymn books in the school. Never carried on in the winter.

Lincoln.—G. W. Shultz. Five schools in township. One well attended.

Morris.—Rev. J. Kisler. Two schools; in rather good condition, but much improvement needed. Room for another school.

Oneida.—N G. McDivitt. Two schools. One only organized a few weeks ago. Great want of books. Not the interest manifested that should be. Another school needed. Three public school houses.

Porter.—John Porter, Esq. Three schools. One at Barree Forge, one at Knodes, and one in the "Loop," in a flourishing condition. Five public school houses. Portion of the township attend the schools of Alexandria.

Petersburg.—D.M.Giles. Three schools Methodist, Lutheran and Presbyterian, all in a flourishing condition. Quite an improvement in the Methodist school within a short time. Pastor takes an active part and seldom absent. Bible class in operation.

Singing by the choir, "Come Holy Spirit, Heavenly Dove."

Prayer by Rev. J. D. Brown.

REPORT OF COMMITTEE.

The Committee on Business reported, order of exercises, hours of meeting, 9 A. M., and 2 P. M; adjournment 12 M., and 5 P. M., to meet in the evening at 7½, and adjourn at 9½. Afternoon exercises, 1st. opening services. 2d. report of townships continued. 3d. Discussion-Subject, The condition and wants of our Sabbath Schools, opened by Rev. Shoemaker, in a speech of ten minutes, followed by remarks of five minutes each. 4th. Question, Should Sabbath School teachers hold weekly meetings, and what is the best method of conducting them; opened by Rev. J. Kisler.

Mr. Peltz addressed a few remarks to the convention from the text, "bring a live coal," in which he exhorted all to bring with them hearts warmed up at a Throne of Grace.

Doxology, and Benediction by Rev. M. K. Foster, of Huntingdon.

AFTERNOON.

The exercises opened by singing the Coronation Hymn, and prayer by Rev. J. W. Plannett, of Huntingdon.

TOWNSHIP REPORTS CONTINUED.

The report from the townships and Boroughs were continued, as follows:

Cassville Borough.—Hon. D. Clarkson. A Union Sabbath School, organized about thirty years ago. Three schools at present, exclusive of the Soldiers' Orphan School, each numbering more than the first one organized. Quite an improvement within the last three years. Have adopted the uniform lesson system, which will accomplish more in three months than could be done in a year under the old system. Four schools needed in the township.

Dublin.—Schools have been flourishing and increasing for the past year. Five in the bounds of one congregation.

Mount Union.—Mr. T. Adams. Two schools, Presbyterian, Methodist. Teachers' Meetings once a month. An effort made to introduce the uniform series of lessons. Great room for improvement.

Shirleysburg.—Wm. B. Leas. Three schools, Methodist, Presbyterian, and Baptist.; organized about 25 years ago. Schools not what they should be, or could be.—Want of energy amongst the families. Not proper effort made to get their children there.

Tod.—Rev. A. P. Decker. Three schools, in fine working order. Have adopted the uniform lesson system in one school. Parents interested and superintendents report favorably.

Tell.—R. Goshorn. Four or five schools. Two of them have made considerable progress. Good attendance and increased interest and future prospects tolerably good.

Union.—John Mierley. Two schools in operation. Two more required. A good deal of interest manifested by parents and pupils. Schools not open in the winter.

Walker.—Mrs. E. White. One school in operation at Smithfield, and two at McConnellstown.

Upper West.—Four schools; well at tended by the children. Great room for improvement on the part of parents.

Lower West.—James Hamilton. Only one school apart from Petersburg borough. In good condition, with room for improvement.

Brady.—Five schools. Three of them organized last spring. Two of them held in school houses; the others in churches.

Three Springs Borough.—P. H. Bence. Three schools. Teachers' meetings once a month, with bible class as an auxiliary.

Orbisonia.—J. H. Miller. One school of 80 scholars. Three schools in Cromwell township.

Shirley.—W. B. Leas. Three schools, one in Germany Valley, one in Hill Valley, and one at Vineyard Mills. Schools not kept up in the winter.

Springfield.—Rev. Shoemaker. Two schools, and room for six. Great want of books and properly qualified teachers.

Jackson.—Rev. A. M. Adair. Six schools; three Methodist, one Presbyterian, one Lutheran, and one United Presbyterian. Little territory unoccupied. Room perhaps for *one or* two more schools. All in pretty good condition. Some not as good as desirable. Some of them in existence a long time. The others organized within the last twelve years, with about 100 scholars, including the bible classes.

Barree.—Dr. J. F. Wilson. Four schools; two Methodist, one Baptist, and one Lutheran. All in good condition, but much want of more. Not one child out of fifty in Sabbath School. Ten school houses in the township. A great amount of work to be done, and a Missionary might employ some six months of his time there to very good advantage, although counted an intelligent and rather wealthy people.

The Business Committee announced the exercises for this evening. 1st. Opening services. 2d. Address by Rev. Geo. A. Peltz, on the advancement of our work. 3d. Miscellaneous business.

After singing and prayer by Rev. J. M. Adair, the Convention proceeded to the

DISCUSSION.

Subject: The condition and wants of the Sabbath School. The subject was opened by Rev. Shoemaker, of Springfield, who remarked that the school was not what it should be, but was progressing when contrasted with its past condition. The interest of parents has about doubled itself within the last four or five years, especially in isolated portions of the country. *Parents and grown persons are more generally interested.* New schools are created every year, and there is evidence of progress in the manner of teaching since the days when we went to school. A great many libraries in the country are good for nothing and should be burned. The school that does not make the conversion of its pupils an especial object has lost sight of its true mission. One half of the additions to the Methodist church come in through the Sabbath Schools. There is progress in this much needed direction. There is still not more than one fifth of the children of the country constantly in the Sabbath Schools, one-fourth of the school houses being unoccupied and the schools being only kept open during the summer. Parents *go to* preaching but *send* their children to Sunday School. Prejudice and fogyism are difficulties to be overcome.—We want practical teachers whose primary object shall be the salvation of their pupils, better libraries, with works on History, Biography and Theology, and lastly, we want God's grace to assist us in rendering our labors successful.

Rev. J. D. Brown, of Huntingdon, said the first thing we want is live, enthusiastic Superintendents. A great many of them who are acting have no enthusism in their nature, and are only there for the purpose of keeping order. The Sunday School is not a dry place. Christ never failed to get the attention of children, and no man who has his spirit ever did.

Mr. Corsman, of Huntingdon, was opposed to the library system as a means of success, and advocated the distribution of religious literature in the shape of childrens' papers. He opposed the employment of unconverted teachers.

Mrs. Gilbert, of Tipton, Blair county, said it is only now and then we come across a real live Sabbath School. Special pains is not taken to secure teachers qualified for the work. New professors of religion appear to be sometimes more zealous in the work than old professors. We want a concentration of intellect and of heart in the work, and are satisfied with too little. It is no time to teach orthography when the little thirsting soul is waiting to be taught about God and Heaven. The Sabbath School should be the Lord's and de voted to His interest.

Mr. Weldman, of Cassville, was at in favor of shutting up the schools, for want of converted teachers. Many of them would thus go out of existence. Many conversions could be traced from the time they were called on to take a working place in the Sabbath School. He did not know what kind of libraries they were that were only fit to burn.

Mr. Giles, of Petersburg, said it would be better for our children if nine-tenths of our Sabbath School books were not in existence. Many of them he would not allow in his house. there is too much machinery and too little time for instructing the classes. We must take such material as we can find for Superintendents. He was opposed to unconverted persons as teachers and officers. It was a curse to the Sabbath School. No man can teach religion when he knows nothing about it.

Mr. Leas, of Shirleysburg, said the great want was an interest in the parents. Nothing is more encouraging than to see the father or mother taking their children to the school. Another want was a proper interest and attention *on* the part of ministers. The brother who could not talk to children ought to learn to do so.

Mr. Cheney, of Huntingdon, also strongly favored a greater interest on the part of the ministers, and illustrated it by a very forcible example in his own experience, where a class taught by the pastor seemed to inspire the whole school with energy.

The discussion on the subject closed with singing, and prayer by Rev. Zahnizer, of Huntingdon.

The question, should Sabbath School teachers hold regular meetings, and what are the best means to be employed for the same, was opened by Rev. J. Lisler, of Waterstreet. He was in favor of regular teachers' meetings. In every other department of life men meet together to devise means to meet certain ends. The Superintendent should lead the meeting. In order to make the meeting interesting and insure attendance in the country let there be a little social party. It was about as consistent to throw straw before lambs as to bring teachers before their classes without any preparation. He would not exclude teachers who were unconverted.

Mr. Glasgow, of Scottsville, was opposed to the employment of unconverted teachers. The grand object of the teachers' meeting should be to qualify themselves, morally and religiously to teach children the way to Heaven.

Mr. Miller, of Broad Top, was not opposed to the employment of unconverted teachers. He was, with others, enabled to praise God for what he had learned in a Sabbath School conducted entirely by those who were unconverted. It was the duty of citizens to organize such a school in preference to allowing their children to run at large on the Sabbath day.

Mr. J. A. Brown, of Huntingdon, was in favor of teachers' meetings for consultation and prayer. We obtain grace when we ask for it, and not till then. He would not discourage the employment of unconverted teachers. Elijah was fed by ravens although an unclean bird.

REMARKS BY MR. PELTZ.

Mr. Peltz at the request of the Convention proceeded to answer a number of questions propounded relative to the practical workings of the Sabbath Schools. He was not opposed to the employment of teachers who were not professors of religion. A large number of professors are incompetent mentally and morally, and appear to be without the grace of God in their hearts. We should seek for moral qualifications irrespective of a profession of religion. Where there is a deficiency of teachers morally qualified we must do the very best we can in the case. He would get them into the *teacher's meeting* and if not professors would pray for them and labor to bring them to the Lord. Get the best persons you can and seek to make up for the deficiency on your own earnest piety and personal efforts.

On the best methods of making teachers' meetings interesting, he would seek to do so by meeting the wants under which they are staggering. Help with reference to the lesson of the coming Sunday. The Superintendent should be thoroughly prepared by earnest study to lead the meeting. The reading of a little *local* paper *once a month and* a social re union once a quarter were recommended together with occasional essays, discussions, lectures, &c., together with a special prayer meeting for the success of the school. There are times when the Superintendent should lead in prayer in the school, but it should be a prayer to which every child could say amen, adapted to the minds of the children, and not too long so as too give them an unpleasant idea of prayer. The repetition of the Lord's Prayer in concert by the school is a good idea. The amount of good derived from Sabbath School festivals, pic-nics, &c., depends first on the demand and secondly on the capacity to manage them properly.

He favored giving rewards for anything in which the children stand fairly on a par, but not for committing to memory. A system of giving tickets which lead to swindling should be avoided.

Teachers are often responsible for the confusion in school from the fact that they do not set a good example. Teachers should instantly come to order and be responsible for the conduct of their classes.

Uniformity of lessons was particularly recommended, and there is no question about its practicability.

Union schools are not the most desirable and often lead to complication, but the field should not suffer from the want of a school on that account. If accidentally dropped down where none thought as he did he would go in on a denominational basis.

The Convention adjourned with singing and benediction by Rev. J. J. Kerr, of Huntingdon.

Wednesday Evening.

The session was opened with singing by the choir, "Beautiful Vale," and prayer by Rev. J. Kisler. The following additional committees were announced by the chair.

Finance.—T. W. Myton, N. G. McDivitt, Wm. Keister, Wm. Brewster and P. H. Bence.

Permanent Organization.—Jas. A. Brown, Dr. Isaac Guss, Jackson Harmon, Dr. G. W. C. James and N. B. Corbin.

Address by Rev. Geo. A. Peltz, on the subject of the advancement of our work:

Our work is the Sabbath School work, and may be regarded in two aspects, as individuals, and as organized bodies. We are a great Sunday School army with an enemy in front marshaled under Satan. Our work is to make a firm line, not simply of defence, but one that is ever advancing, pressing onward and outward until the enemy is driven back and we hold the field in the name and for the sake of our Lord Jesus Christ. We advance this line as a whole by the advance of every single point. When the Sunday School work first begun it was a reformatory measure merely. That idea has lasted too long. We want to enlarge our conceptions to something adequate The idea that it is adapted merely for children is pernicious. Its object is primarily to learn the will of God and arrive at a proper understanding of His word. There is no more dignified work. We do good if we hold scholars under the influence of truth even if it does not tend to bring them directly to the Saviour, and the teacher's work if it holds the scholar there is just as important to us as the sermon itself. We should enlarge our ideas as to the importance of proper school furniture and apparatus. There is such a thing as developing working men and working women. He should endeavor to promote intelligence as well as enthusiasm. To advance our lines against the kingdom of Satan and become victors for the Lord Jesus we must enlarge our ideas of the work. Abandon the old idea that it is *only for the children's benefit*. It is the bible studying department of the Church of God, and when the church fails to study the bible she is like a sea captain who flings his charts and compass into the sea. The Sabbath School is not to teach children the alphabet but to teach them Jesus, and bring them to the Saviour; to hold them under religious influences and teach them the truths, that they may become christians and as such that they may develope into higher usefulness. Persevere then and press out the lines and drive Satan back. Some other valuable hints and suggestions were given in regard to libraries, finances, lengths of lessons. The following books were specially recommended for a Sabbath School teachers library:

Pardee's "Index,"
Eggleston's "S. S. Manual,"
House's "Hand Book,"
Trumbull's "Children in the Temple,"
Hart's "In the School Room,"
Vincent's "Helpful Hints,"
Taylor's "S. S. Photographs,"
Reprints of London S. S. Union, Eg., "Art of Questioning," "Art of Illustration," "What is a Child," &c., in all costing about $2,00.
Also M'Cook's forthcoming book on "Object Teaching." Total cost about $15,00.

The session closed with singing and benediction by Rev. J. D. Brown.

Thursday Morning.

DEVOTIONAL EXERCISES.—Convention met at 9 o'clock, and spent half an hour in devotional exercises, led by Rev J. D. Brown, and participated in by Messrs. Porter of Alexandria, and Evans and Ridder of Shirleysburg.

REGULAR EXERCISES.

The regular exercises were opened by singing, and prayer by Rev. Moore, of Alexandria.

The following Committee on Resolutions was announced by the chair: J. S. Blair, J. B. Kidder, James T. Owens, S. G. Miller and Wm. E. Adams.

On motion of Rev. J. W. Plannett, a special committe of five was appointed to decide on and report to the convention the time and place for holding next meeting.

BLACKBOARD TEACHING.

The discussion on the best use of the blackboard in the Sabbath School as a mode of teaching was opened by Mr. Peltz, who said the most proper mode of instruction would be to take the pupils to the scenes of the transaction, if possible. The next best is to have a good picture of the same, which would be too expensive. The next best would be by a *rough rapid drawing* on the blackboard or slate to aid the memory through the eye by a simple presentation of it, just as in the study of arithmetic or goometry, thus holding truths already gained while we gain others, and then reviewing all together. The blackboard is one of the most valuable aids in this respect and is used for this purpose in our higher schools and colleges and even in the Supreme Court of the United States. The highest style of blackboard teaching is the pictorial presentation. The creation and development of *anything is of special interest* to the mind of a child. The scrostical, aliterative, and topical methods for the cultivation of mental activity and impression of texts, on the mind, were each in turn explained and illustrated.

Mr. Peltz, was followed by J. Randolph Simpson, Esq., of Huntingdon, who illustrated in a clear, forcible and very interesting style the method pursued in the mission school here, of teaching Bible truths, scripture geography, history and chronology, by means of the blackboard, to adults who cannot read or write.

[illegible] Brown followed in some very interesting remarks illustrative of the method of teaching the objects pursued by him with a great amount of success, and the subject of blackboard teaching was further illustrated by J. A. Brown.

PERMANENT ORGANIZATION.

The report of the committee on permanent organization was presented and adopted as follows:

Your committee directed to submit a plan for organizing a County Association, report the following:

Resolved, That we form an association to be known as "The Huntingdon County Sabbath School Association."

Resolved, That the officers of this Association shall be a President, Vice President, County Secretary, and one Secretary in each township and borough in the county, and a Treasurer.

Resolved, That an executive committee be appointed to consist of seven persons, and that the President, Vice President, County Secretary and Treasurer be three or four of the seven.

We respectfully submit the following nominations:

For President—K. Allen Lovell, Esq.
Vice President—John Major.
County Secretary—G. B. Armitage, Esq.
Treasurer—N. B. Himes.

Signed by the Committee.

RESOLUTIONS.

The committee on resolutions presented the following which were adopted:

This being the first Union Sabbath School Convention held in this county, it is a matter of unfeigned thankfullness to your committee, and we doubt not to every member of the Convention, that God has put it into the hearts of so many to be present with us, and that the interest in the Sabbath School cause is so earnest and growing.

To avoid any misunderstanding or miscorstruction on the part of the churches or on the part of the world or among ourselves it is hereby

Resolved, That we understand the true position of Sabbath Schools to be auxiliary and in subordination to the Church, and the proper work of the Sabbath Schools to be to assist in the dissemmination of religious truth and the instruction of the rising generation in the knowledge of the Bible doctrines of human salvation and to lead all scholars to embrace Jesus Christ as he is offered to us in the gospel.

Resolved, That it is the duty of the Sabbath School officers in the town and country to keep the rooms where their Sabbath Schools are usually held open every Sabbath in the year, and to be present themselves to teach such of the children as are able and willing to attend.

Resolved, That as Religion and Temperance go hand in hand that it is the duty of all our Sabbath School teachers to inculcate the doctrines of total abstinence, and by their walk and conversation to enforce these lessons; and we recommend that each Sunday School be a temperance organization.

Resolved, That it is the duty of all who love Christ and desire to see the advancement of His Kingdom to organize Sabbath Schools in every part of the county where they do not already exist, and to use their best endeavors to make them nurseries of the Church, and a means of grace to the children.

Resolved, That we urge the importance of every school in the county organizing weekly teachers' meetings for mutual comfort, encouragemens and instruction.

Resolved, As lessons of charity should be taught to the children at as early an age as possible, the missionary work should be made interesting to them, that we recommend to each school that a missionary collection be taken regularly every Sabbath.

Resolved, That each school should be provided with a blackboard, pictures and such Biblical maps as may be obtained to aid in instructions, and also a good library and illustrated Sabbath School papers for general distribution as means of good and to render the Sabbath School attractive to the children.

Resolved, That the thanks of this convention be tendered to Rev. Geo. A. Peltz for his valuable services; to the members of the press for the aid they have rendered us in calling the convention; to the citizens of Huntingdon for their liberality in bearing the expenses and for their kind hospitality; to the musical committee for their excellent music with which they have favored us on this occasion; to the Secretaries for their faithful records of our proceedings; to the President for the able manner in which he has conducted these exercises, and to the officers of the county for the liberal use we have had of all the rooms in the Court House.

Signed by the Committee.

WINTER SCHOOLS IN THE COUNTRY.

The discussion on the subject of keeping the schools open during the winter months, in the country was opened by S. McVitty, Esq., of Clay township. He took the ground that it depended upon the location and facilities for attending. While it would be morally wrong to close some of our schools in the winter it would be almost inhumanity in other cases not to do so. The broken condition of the country, the sparseness of population and the distance a number of them would have to travel in many cases rendered it impossible during the inclement season to secure a competent corps of teachers and sufficient number of scholars to make it interesting or keep open the schools with any degree of advantage. In such cases it would be proper to close them, but where possible to keep them up without those difficulties to interfere it should by all means be done. On this subject quite an animated discussion ensued. Mr. McVitty was followed by Rev. A. P. Decker, D. Blair, Esq., Hon. D. Clarkson, S. L. Glasgow, Esq., Revs. Moorhead and Adair, Mrs. Gilbert, and Revs. Kisler, Palmer, all of whom took the opposite view of the question, and Messrs. P. H. Bence, A. L. Guss, and Jas. Hamilton, Esq., in favor of it. At the close of the discussion a vote of the congregation was taken which resulted in a unanimous expression in favor of maintaining the schools during the year.

Mr. Simpson, chairman of the business committee said it was due to Mr. McVitty to say that the committee in assigning him the subject had requested him to take the negative position in order to elicit the opinions of the other members more fully on the subject.

MISCELLANEOUS QUESTIONS.

The remainder of the session was principally occupied by Rev. Mr. Peltz, in reply to a large number of questions propounded relative to the practical working and success of the Sabbath School, such as the true position of the church; uniformity of lessons, number of sessions proper to be held each day, best mode of distributing library books, organization and instruction of infant classes, Sunday School prayer meetings, &c., all of which were answered in a highly satisfactory manner, accompanied with valuable hints and suggestions in regard to each, which were replete with information and instruction.

COMMITTEE ON TIME AND PLACE.

The chairman announced the following committee on the time and place of holding the next meeting: John Major, J. S. Cornman and N. B. Himes, of Huntingdon, John Porter, of Alexandria, and Adam Sheeter, of Clay township.

Adjourned with doxology and prayer by Rev. J. Palmer, of Broad Top.

AFTERNOON.

Children's Meeting.—The Sabbath children of the various schools in this place, amounting to several hundred assembled in the court house yard at 2 o'clock, and after singing and prayer by Rev. J. W. Evans, of Shirleysburg, were addressed by Rev. J. M. Adair, of Jackson township and Prof. S. C. Grier, of Birmingham and Rev. Geo. A. Peltz, in neat, appropriate and interesting speeches, suited to the juvenile capacity, and which were listened to with the most respectful attention, at the close of, these exercises the Convention reassembled in the court house.

DELEGATES PRESENT.

The enrollment committee reported 168 delegates present from the different schools of the county.

Adjourned with doxology and benediction by Rev. Moorehead.

THURSDAY EVENING.

Opening Exercises:—Exercises introduced by singing the "Hearld of Zion" and prayer by Rev. Moore, of Alexandria.

MISCELLANEOUS BUSINESS.

The committee on time and place for holding next convention reported the place—Huntingdon—and time—on the 3d Wednesday and Thursday of May next. Report adopted.

The committee on finances reported favorably, recommending that a collection be taken up for the purpose of defraying the incidental expenses of the convention.

On motion of J. S. Corsman, the finance committee were authorized to pay the reporter $10 for his services during the session of the convention.

The committee on permanent organization presented the names of the following persons as members of the executive committee:

Wm. Neff, of West twp.; D. Clarkson, of Cassville; James Magill, of Jackson; John Palmer, of Dudley; James McCafferty, of Petersburg, and W. P. Orbison and Robert McDivitt of Huntingdon.

The finance committee reported:

Amount of collection	$11.62
Donation from John Porter, Esq.	5.00
	$16.62

CHURCH SUPERVISIONS.

The question should all Sabbath Schools be organized under the supervision of some one of the various churches of our land? was opened by Rev. Dr. Hamlin, who took ground in the affirmative. He was followed by Rev. J. D. Brown, who strongly favored the establishment of union schools in preference to allowing the children to be without Sabbath School instruction, the true object of which, in all cases is to direct children into the way of salvation and bring them into the fold of Christ.

CONCLUDING EXERCISES.

At the request of the chairman the remainder of the session was spent in devotional exercises, in order to invoke the Divine blessing upon our labors, and implore the guidance of His spirit to strengthen us for our work.

The exercises consisted of singing and prayer, accompanied by feeling and appropriate remarks, and were participated in by Revs. Moore, Peltz, Hamlin, J. D. Brown, D. Blair, Esq., and the Chairman. They were of the most solemn and impressive character, and the large audience in attendance, partaking of the inspiration imparted by the exercises and the occasion, appeared, as one man, to manifest a realizing sense of the solemnities of the hour, while the ministers, delegates and Sabbath School workers, in closing their labors, consecrated themselves anew to the work, in view of the magnitude of their labors, and the great burden of souls resting upon them.

Mr. Peltz offered the concluding prayer, and the Association adjourned.

Republican County Convention.

A Convention of the Union Republicans of Huntingdon county, will be held in the borough of Huntingdon, on TUESDAY, AUGUST 9TH, 1870, at 1 o'clock, p. m.

This Convention will be composed of two delegates from each township, borough, ward and district.

The Republican voters of the county are requested to meet at their respective places of holding elections (except those of the West ward of the borough of Huntingdon, who will hold their election at the new Engine House,) on Saturday, the 6th day of August,—in the Townships, between the hours of 3 and 7 o'clock, p. m, and in the Boroughs between the hours of 6 and 9 o'clock, p. m., for the purpose of electing delegates to this Convention.

Nominations will be made at the Convention for Congress, State Senate, Assembly, Associate Judge, County Commissioner, Director of the Poor, Jury Commissioners and County Auditor.

WM. LEWIS,
Chairman Republican County Committee.

ROBERT has had a dream. He had us olosoted with a prominent political Doctor for hours. All a dream Something must be troubling Robert very much.

THE New York *Tribune* describes the field of conflict between France and Prussia as follows: "The strife now raging there (France and Prussia) resembles a war between Illinois and Indiana for that part of Indiana west of the Wabash, or between Virginia and Pennsylvania for the Shenandoah Valley."

M. PARADOL, Minister to the United States from France, shot himself through the heart at Washington on the 20th inst. It is supposed that the hot weather depressed him, and the news of the war had an unfortunate influence on his very nervous organization.

MR. MORRELL'S organ in Johnstown would like to make the Republicans of the district believe that there is no disaffection in the Republican party in Cambria county. Thirty-six delegates, very near one half of the convention, withdrawing from that body and refusing to support the nomination of Mr. Morrell, means something.

THE fact that the Democratic press is opposed to Mr. Morrell, is no evidence that he would make the strongest candidate for the Republican party. We know that the leading Democrats in this county want Mr. Morrell nominated—then their best and strongest man in this locality—a prominent lawyer and able speaker—would be put up against him, and the county might be lost to the party a second time.—We don't want to see such a "situation."

THE Republicans of the county anxious for party success this fall, should be careful not to load down a good county ticket with an objectionable candidate for Congress. If the head of the ticket should be faulty, the balance of the ticket would most certainly suffer loss. An unobjectionable leader for Congress might save from defeat our whole county ticket. The Republican party can't afford to lose another County Commissioner and another Director of the Poor, to say nothing of the Legislature and other offices.

WE wish to call the attention of the Republican voters of the county to the fact that not a single man that took a prominent part as a disorganizer last fall has given any assurance that he will support the ticket to be nominated at the next Convention. They stand off from giving the party a pledge that they will be truer this fall than they were last. They prefer to *remain loose* that they can act their part again if they fail to rule in the Convention. We ask every true friend of the party if it is right that *such* party men should be tolerated as leaders of the party.

LEWIS proposes to be a Republican, but refuses to endorse what has been done by a Republican Congress, and is now one of the laws of the land. *For our part WE endorse ALL that has been done by the party.—Journal & American.*

If a man cannot be a Republican unless he endorses *all* that has been done by Congress we fear the vote of only such as endorse *all* that Congress has done would elect but very few, if any, to Congress or any other office. For our part *we do not* endorse all that has been done by the party in Congress or out of it—its measures that have become laws of the land without our approval, we respect and obey, with the same honesty of purpose as a party man as we shall continue to support party nominations. The *N. Y. Tribune* and many other leading Republican papers in the States have not been slow to disapprove of much that the Republican party in Congress has done, and yet they have not been considered any the less Republican.—A man who is willing to endorse ALL that his party may do in Congress or State Legislatures, or any where else, is not a safe man for the interests of the people to have control of a public journal.

Delegate Elections.

Saturday a week next the Republican voters of the county are expected to elect delegates to the Republican County Convention to be held in this place on Tuesday the 9th of August. The time is short for the voters to make up their minds as to what they will be willing to have done in the Convention. There is no denying the fact that there are two prominent interests in the contest—two wings to the party—the one supported the regularly nominated ticket last fall, and the other united with the Democrats and defeated our candidates for the Legislature, Prothonotary, County Commissioner, and Director of the Poor. It will be for the Republican voters of the county to say at the delegate elections whether they are in favor of sustaining those who remained true to their party organization and nominations last fall, or whether they are willing to reward those who were false to their party obligations by giving them a controlling influence in making the nominations in the next Convention. Congress will attract most attention. Mr. Morrell is again a candidate, for a third term. He has been put forward as the candidate of the leading disorganizers in this county. The patronage at the disposal of Mr. Morrell and Mr. Scott has been used to strengthen their *claims* and to *crush* that portion of the party that refused to yield to the disorganizing demands of Mr. Scott. The contest is accepted. If Mr. Scott can [illegible] majority of delegates in this [illegible] in favor of giving Mr. Morrell a third term, Mr. Scott will have a right to claim Mr. Morrell's nomination an endorsement of his and the conduct of all other leading disorganizers. One or the other of the wings was wrong last fall—either the one that supported the ticket, or the one that united with the Democrats. It will be for the voters at the delegate elections to say which wing was wrong, and to send delegates to the Convention to represent their sentiments honestly. If guerrilla influence can control the Convention, we fear the nominations will be as loosely respected by the *crushed* wing of last fall, as the regular ticket was by the Scott disorganizers. With the whole party will rest the responsibility of fixing up the party for success or defeat.

Rule or Ruin.

It seems clear to us that Mr. Morrell's leading friends, not only in this but also in Blair and Cambria counties, are determined to rule or ruin the Republican party. Is there no man in the district fit to take Mr. Morrell's place? Are there no other good tariff men in the district? Mr. Morrell has been in Congress four years—his influence, *it is said*, was very great—and yet the tariff question is as *open* to-day as it was four years ago, only a little more so. We think there are other men in the district who could bring about results quite as rapidly as has Mr. Morrell. But the tariff question is not the question that interests Mr. Morrell's *warm* friends most.—They have axes to grind—and as long as Mr. Morrell is willing to turn the stone they will be his fast friends even unto the death of the party—rule or ruin. A new man could not fail to make certain a Republican victory in the district and in this county—with Mr. Morrell the party must drag from the commencement of the campaign—we believe so, and say so. We did not make nor help to make the "situation" as it is—Mr. Morrell's nearest political friends did it.

THE *Johnstown Tribune* can't see anything politically wrong in supporting in Cambria county upon the same ticket with Mr. Morrell, James Potts, a Democrat, for the Legislature. It is a local interest that requires such a union there—but it gives the Democrats in the county and State only what they had last year. The same arrangement might be made here—the Democrats might agree with the friends of Mr. Morrell to put up a similar ticket, Mr. Morrell for Congress and a Democrat for the Legislature—the Democrats had the member last year—and will have him again even without such an arrangement if Mr. Morrell's leading friends don't do better than they did last fall. We would not support such a ticket here—we could not support the one in Cambria. Dollars and cents seems to be the political principles of the Johnstown organ.

WHERE would the Union party and the Union army have been during the war if the Republican party had been left out, and where would the country have been to-day without the Republican party?"—*Journal & American.*

And where would the Union party and Union army have been during the war if thousands upon thousands of Union Democrats (like John Scott who wouldn't be called a Republican) had not come over to the support of Abraham Lincoln and the union army; and where would the country have been to-day without the support of the Union Democrats? With the old Democratic party in the free States acting *solid* with the Rebels against a *Republican* army, the Republican party of to-day might not be "at home." We are willing to give credit where it is due.

There are now 115 blast furnaces in the United States.

The War in Europe.

No engagement has occured between the French and Prussian forces as yet; the engagement reported to have occurred at Forbach having turned out a false dispatch. Both armies are mobilizing, and are concentrating near the Rhine. Emperor Napoleon with his son has left Paris to go to the front, leaving the management of the civil government in the control of the Empress and the Corps Legislatif.—Both armies are large and well armed—the French with the Chassepot rifle and the Prussians with the death dealing needle-gun. The people of both nations almost universally are for war, and many enthusiastic demonstrations have ensued, accompanied by many voluntary enlistments. It is not known at what point the first engagement will occur, nor can the time at which it will take place be stated.—It may be but a few weeks and it may be months; but at all events the war is inevitable, and death will occur sooner or later—and all the result of the greed of conquest, which is felt alike by both monarchs. Let us hope that both will learn enough from the war to realize the folly of their ambition.

WE are informed that the census takers are getting along finely in the discharge of *all* their duties. One has reported that so far as he could get his questions answered, he thought Mr. Morrell would stand a pretty good chance of a re-nomination in the county if that wing of the party that was *smashed* last fall could be prevented from getting into the nominating Convention. Just so.

A WONDERFUL FALL.—Last Friday morning a lad named Martin Crossman, aged four years, and son of Rev. James C. Crossman, pastor of the Evangelical association chapel, fell over the precipice at the head of Van Braam st., in the Sixth Ward, and lodged upon the track of the Connellsville railroad, three hundred feet below. The express train on the road was just coming in sight at the time, and the boy was in imminent danger of being crushed beneath the train, when a workman happened to see the danger, and seizing the apparently dead child carried it from the track just in time to escape the next danger. So close was the train upon the man that it almost brushed his clothing as he stood pressing his body against the rocky hillside until it passed. He found that the boy although unconscious was not dead, and speedily carried him to his father's residence, on St. Patrick's alley. Physicians were called, and it was found that no bones were broken, although there were several internal injuries, and numerous external cuts and bruises on the body. There are hopes that the boy will recover. It appears that the lad was playing on one of the over-hanging rocks with some other children, and in attempting to pick up something below which had attracted his attention, he lost his balance and not handling down the precipice. His fall was broken by the shelving rocks. His escape, nevertheless, was most miraculous. In view of the numerous accidents which occur here, it is strange that the city authorities have not erected a barricade along the bluff.—*Pittsburgh Commercial.*

A CHILD HEROINE.—On last Thursday evening, says a Dakota paper, a man, whose name we did not learn, and two sons of Mr. Fargo, who resides at the Lakes, in Clay county, went out on the lake in a canoe, to have a swim by the aid of the boat.—The man could not swim, nor could the youngest Fargo boy, about nine years old; the oldest boy, about thirteen years old, could. Thus the three proceeded to put their swimming ideas into execution. Things went smoothly until, through a little excitement, the small boat was overturned. The event occasioned a cry for help There was no one around the house, or near, only Mrs Fargo and her little daughter, about eleven years. This little girl, with a spirit of heroism equal to Ida Lewis, rushed to the bank of the lake and jumped into another canoe, and paddled out to where the three persons were struggling in the water. She would have brought all three safe to the shore had they remained cool, but, in their anxiety to grasp something with motive power on board, they capsized her little craft and threw her into the water. Luckilly for the little heroine that she could swim.—At this stage of the game, she, with coolness and courage seldom equaled or surpassed by men, called out to her little brother to hold on to her, and for the other two to hold on to their boat. She thus secured her little brother, and swam ashore with him holding on to her boat. Her eldest brother saved the man in the same way. Thus the entire party were saved through the coolness and courage of a little girl only eleven years old.

The captain of the brig William Mason, which arrived at Boston on the 17th from Surinam, reports that on June 30, latitude 38 degrees north, longitude 55 degrees 15 minutes, he picked up a boat containing eighteen seamen in a starving condition, without food or water. As they could not speak English they could not give an account of themselves or where they belonged. They are supposed to be French seamen, and were all brought to this port.

KEOKUK, IOWA, is about to follow the example of Boston, Massachusetts, in prohibiting the sale of fire-crackers. On the 4th instant, in the former place, a Guy Fawkes of a boy threw a fire cracker into a stable yard, and the result of that boy's Fourth of July was the destruction of twenty-two buildings. Portland, Maine, a few years ago, was nearly destroyed by a fire which originated from the Chinese inventions.

Couldn't you break him? A. LINCOLN."

IMPORTANT TO FARMERS.—A correspondent of the Beaver *Radical*, writing from Harrisburg, says the following on the matter of unpatented lands: "There is many a prosperous, thrifty and honest farmer living to-day on land which he confidently believes he owns—in which he has the title papers all regularly made out and recorded, but when he comes to trace the record back to the source of title to land in this State he discovers with dismay that there never was a patent taken out for his farm; that where it has been patented the fees were never fully paid up, so that there are defects in his title which, if pushed at any time, would possibly deprive him of his homestead. Ample notice has been given to parties to come forward and remedy this defect and negligence—A large number of holders of land have already done so, but many have thus far treated the matter with indifference, from which they are to be aroused by suits which will be brought by the State, the result of which may be very disastrous, as the costs will of course be very heavy. The newspapers of this State would be doing a real service did they at once call attention to these facts. Let every farmer see that he has a patent for his land—that all fees and costs of such patented land is fully paid; and the proper source to ascertain these facts is the land office."

A Wholesome Field Drink.—The excessive use of cold water during the sweltering heat of summer often results in serious and alarming illness. It is therefore advisable that some beverage should be substituted for it, of which those oppressed can partake with safety. For this purpose I am aware of no better or more refreshing drink than the following: Take of the best white Jamaica ginger root, carefully bruised, two ounces; cream of tartar, one ounce; water six quarts, to be boiled for about five minutes, then strained; to the strained liquor add one pound of sugar, and again place it over the fire; keep it well stirred until the sugar is perfectly dissolved, and then pour it into an earthen vessel, into which you have previously put two drachms of tartaric acid, and the rind of one lemon, and let it remain till the heat is reduced to a luke-warm temperature; then add a tablespoonful of yeast, stirring them well together and bottle for use. The corks must be well secured. The drink will be in high perfection in four days. This is a very refreshing and wholesome beverage, and one which may be partaken of without any unpleasant results even in the hottest weather.

Rude Sport.—A new game called "Shoo Fly" (for want of a better name we suppose) has been introduced in Huntingdon. One game was played on Friday evening last, and a number of youths engaged in it. The game is novel, but we cannot see where the amusement comes in, and we suppose a large majority of the young men who engaged in the first game have thought better of it, and would not engage in another. The game consists of getting a common live duck and burying it in the ground, leaving the head and neck exposed. Then, for five cents, the boy can throw a club at it, from a distance of about thirty feet, and whoever hits it, wins the biped. No sensible boy can fail to see the barbarity of this species of sport, and we are glad to know that our boys had humanity enough to make one game suffice.

How to Stop a Paper.—"You have an undoubted right to stop a newspaper whenever you are disposed, upon payment of all arrearages. Do not hesitate to do so on account of any tenderness of feeling for the editor. Don't you suppose he would stop buying sugar of you, or meat, clothing, dry goods, &c., &c., if he thought he was not getting his money's worth? And when you discontinue a paper, do so manfully. Don't be so spiteful as to throw it back to the postmaster with a contemptuous, 'I don't want it any longer?' and have refused written on the margin, and have the paper returned to the editor. No gentleman ever stopped a paper in that way, no matter if his head is covered with gray hairs that should be honorable. If you do not wish longer to receive a newspaper write a note to the editor like a man, saying so—and be sure that arrearages are paid. This is the way to stop a newspaper."

To Maimed Soldiers.—A law was passed, and approved by the President, providing "that every soldier who was disabled during the late war for the suppression of the rebellion, and who was furnished by the War Department with an artificial limb or apparatus for resection, shall be entitled to receive a new limb or apparatus as soon after the passage of this act as the same can be practicably furnished, and at the expiration of every five years thereafter, under such regulations as may be prescribed by the Surgeon General of the army: *Provided*, That the soldiers may, if he so elect, receive instead of said limb or apparatus, the money value thereof, at the following rates, viz: For artificial legs, seventy-five dollars; for arms, fifty dollars; for feet, fifty dollars; for apparatus for resection, fifty dollars.

An Interesting Trio.

The world might be traversed over and it is doubtful if another trio exists that does the same as the one of which we write? In this town are three old ladies, aged respectively 77, 75 and 59—(combined ages 211 years)—who cook for a family of twelve, and control all the household affairs in a satisfactory manner. The youngest does the chief part of the cooking, assisted by the next; while the oldest has charge of the chamber work. The "chief cook" says she can beat the generality of "girls" nowadays in putting through work. The combined weight of the trio would range in the neighborhood of 400 lbs., and over. One is married and the other two are widows.

Picnic.—Picnics are the order of the day everywhere. The Red Men of this place intend holding one at Drennen's place on the 16th of September next. The success which attended the first one that this order gave is sufficient guarantee of what may be expected of the next. The Red Men know how to get up a good thing, and such their next picnic will be.

A Bear Feat.—A live bear was brought to town on Friday last by a Frenchman, and traversed the streets of our borough, going through some evolutions that showed it had been well trained. Of course the keeper's object was to make money, and we have no doubt the fellow succeeded in obtaining a considerable sum, as the exhibition was novel, and interesting. The bear and its keepers traveled the towpath in the direction of Mill Creek.

Ladies Dresses and Boys Clothing.

Mrs. B. Annie McCabe respectfully informs the public that she has removed to the house formerly occupied by H. McManigill, on Washington street, and is prepared to make Ladies' Dresses and Boys' Clothing, of all kinds. She respectfully invites a full share of patronage. ap7

Every business man should use printed bill heads, letter heads, and envelopes. They have to use the paper and envelopes, anyway, and we furnish the material at wholesale prices, and print them at less than the material would cost at retail price. Call.

Can't be Undersold.

Red Front Grocery received new supplies almost every day, sells the most and freshest, and can't be undersold. New Mess Shad, Dry Salt Roe and Pickled Herring, the best and medium Mackerel, White Fish, Trout, Salmon, &c., *cheaper* than the *cheapest*, and *warranted*.

☞ Farmers needing a Grain-drill, will do well to call on Wharton & Maguire and examine the Willoughby gum-spring grain drill, either with or without phosphate attachment, before purchasing. tf

Notice.—There will be a special meeting of Standing Stone Lodge, I. O. G. T., on Monday evening next.—Very important business is to be transacted, and a full attendance is urged.

Carpet Weaving.

Mrs. Matilda Pheasant is prepared to weave rag carpets, and solicits patronage from a generous public. Residence: Washington Street, West Huntingdon. tf

An Indiana hen is said to have been found in a hardware store, where she had been striving for three weeks to hatch young, chickens out of half a dozen white door knobs.

☞ A large stock of the best Stoneware, of all kinds, now on hand at the Red Front Grocery, and for sale cheaper than anywhere else in the county.

S. B. Chaney & Co are closing out their Summer stock of clothing at greatly reduced prices. 1t.

S. B. Chaney & Co bought a large stock of Groceries before the last advance and are still selling low.

S. B. Chaney & Co give the highest market prices for wool and all kinds of marketing. 1t

Bleached Muslin can be bought at S. B. Chaney & Co's lower than at any other house in town. 1t.

MARRIED,

On the 19th, by the Rev. J. W. Plannett, Mr. John P. Davis to Miss Adalanda Bard, both of Shirley township.

DIED,

At McConnellstown, Sunday, July 10th, 1870, Miss Mary Vandevander, aged 25 years, 1 month 15 days.

Another Mary's taken flight
To that eternal home,
Another youthful voice is heard
Around our Father's throne.

How calmly did our darling leave
This world of tears and care!
While on the verge of time she sang,
"There'll be no sorrow there."

She dwells among the angels now,
Beyond death's darkened tide;
Her ransomed feet now gently tread
Just on the other side.

On 16th ult. in Cass township Oscar, infant son of Calvin and Maggie Shaffer, aged 8 months 13 days.

Huntingdon, July 21st, Lydia C. Ames, of Durand, Ill., aged 35 years, 7 months, 26 days.

She was amiable in her disposition, as a christian, and won many friends, whom she leaves with a husband and five children to mourn their loss.

IMPORTANT TO SOLDIERS.

All Cavalry Line officers who were in the service between July 22d 1861 and July 17th 1862 are entitled to allowance for use and risk of horses, amounting for the whole time to about $150; for a less time, to a proportionate amount. Discharges must accompany claims.

Heirs of those entitled but who were killed or died in the service, and the arrears of pay having been collected, are only required to give a power of Attorney.

Persons having claims of this kind, or any other claims against the Government can have them promptly collected by applying in person or by letter to

ROSADALIS

This Great American Health Restorer, purifies the blood and cures Scrofula, Syphilis, Skin Diseases, Rheumatism, Diseases of Women and all Chronic Affections of the Blood, Liver and Kidneys. Recommended by the Medical Faculty and thousand of our best citizens.

Read the testimony of Physicians and patients who have used Rosadalis and for our Rosadalis Book of Health or Almanac for this year, which we publish for gratuitous distribution; it will give you much valuable information.

Dr. R. W. Carr, of Baltimore says:

"I take pleasure in recommending your Rosadalis. I have used it in my practice with happy results—one in case of secondary syphilis, in which the patient pronounced himself cured after having taken five bottles of your medicine. The other is a case of scrofulous disease of long standing, which is rapidly improving under its use, and the indications are that the patient will soon recover. I have certainly examined the formula by which your Rosadalis is made, and find it an excellent compound of all alterative ingredients."

Dr. Sparks, of Nicholasville, Ky., says he has used Rosadalis in cases of scrofula and secondary Syphil

BY HORACE GREELY.

XXIII.

ABOUT TREE PLANTING.

I have had so little experience in Tree-Planting that I should have preferred to say no more about it; but letters that have reached me imply that the ignorance of others is even denser than mine. For the sake of those only who are not unwilling to learn, I venture a few timid suggestions with regard to Tree Planting.

I. Ten or twelve years ago, I bought a pound or more of Locust seed rather late in the Spring, scalded it by plunging at night-fall the little cotton bag which held it into a pot of boiling water, and letting the seed steep and steam in the bag till next morning, when the seed was planted in rows in a newly broken bit of poor old pasture-land. This was a mistake: I should have given that seed the richest available spot in my garden, to say nothing of planting it as early as April 20th. My locusts came up slowly and grew feebly that year, not to speak of the many seeds that did not sprout at all. Still, many came up and survived, and my place is this day the richer for them. It might have been still richer had I seasonably known more.

II. What I would now advise as to Locust and most other trees is that the best seed be procured in the Fall, or so soon as it drops from the trees; that part of it be sown in drills, two feet apart, with two inches between seeds in the drills, and that the richest of dry, warm garden soil be devoted to this purpose. Fill a large box with rich loam, stir four ounces of seed into this, and set the box in a cool cellar where frost does not enter, and here let it remain till April, then take out the seed and earth together, and sow in drills as above. If some one who cuts Locusts during the Winter or Spring will allow you to trace the smaller surface roots from the new made stumps and cut or dig them up, cut fifty or a hundred pieces of root the size of your finger each two feet long, and plant these, about May 1, in the places where you want Locusts to come forward most rapidly. Some of them may not grow, but I think many will; and from all these sources, I judge that you will obtain a good supply of young trees. Let those you start from the seeds get two years' growth before you take them up and set them where you want trees, whether in your present woods, in rugged, rocky pastures, on the sides of steep ravines, or around your buildings. You cannot fail to obtain some trees if you follow these directions.

III. Begin early this fall to gather Chestnuts, Hickory Nuts, Walnuts, White Oak Acorns, &c., to plant. Select the largest and finest nuts, giving the preference to those which ripen and fall earliest. Keep them in cool, damp earth in some barn or cellar where rats and mice cannot reach them, and persist in collecting till December. Then plant a part in your garden or in any rich ground where they are not likely to be disturbed; letting the residue remain in the boxes of moist earth where you first placed them till early Spring, then plant these, like the former, in rows two feet apart, with six inches between seed and seed in each row, and give the rows careful culture for two years; after which, set them where you wish them to grow.

I venture to suggest that he who has a rugged, stony hill or other lot which he wishes to surrender to forest should plow it, if it can be plowed, next September or October: if too rocky to be even imperfectly plowed, dig up the earth with pick and spade, and sow it thickly with hickory nuts, walnuts, chestnuts, locust and other tree seeds, expecting that some will be dug up and carried off by squirrels, &c., and that others will fail to germinate. Go over it with hoes the ensuing June or July, killing all weeds and other infestations; and, nearly a year later, repeat the operation, taking up young trees from your garden or nursery, and filling them in wherever there is room. Plant thickly in order to force an upward rather than a scraggy growth; and so that you may begin to cut out the superfluous saplings for bean-poles, hoop-poles, &c., three or four years thereafter. Cut late in Winter or early in Spring, so that the stumps will each throw up two or more shoots or sprouts, which usually grow much faster than the original tree did.

The process of thinning may thus be continued indefinitely, while the choicer trees are allowed to attain their statelicst proportions. And thus a rocky, sterile hill-side or knoll may be made to yield a crop annually after the first two or three years from planting, while growing trees of decided value. I judge that almost any land within fifty miles of a great city and not more than two miles from a railroad depot or from navigable water may thus be made to earn a good interest on $100 per acre, after meeting all the cost of breaking up and planting. I confidently assert that many thousands of sterile, rocky acres, which now yield less than $10 per acre in pasturage, would net at least double that sum to the owner if wisely devoted to forest trees.

I have a hearty love of forests.—They proffer gentle companionship to the thoughtful and rest the overworked, fevered brain. Our streams will be fuller and less capricious, our gales less destructive, our climate less capricious, when we shall have reclothed our rugged slopes and rocky crests with trees. Timber grows yearly scarcer and dearer, when it ought to becoming more plentiful and accessible, and would be if we devoted to trees all the land which we cultivate at a loss or fail to cultivate at all. Let our boys be incited to gather seeds and plant nurseries; let young trees be bought by the thousand where they now are by the dozen, and let us all co-operate in covering our unsightly rocks and making glad our waste places by a superabundance of choice, thrifty, healthy trees.

HOW TO CURE CONSUMPTION.

THE PHILOSOPHY OF DR. SCHENCK'S GREAT MEDICINES.—Will people never learn to know that a diseased liver and stomach necessarily diseass the entire system? The plainest principles of common sense teach this and yet there are hundreds who ridicule the idea, and continue in the course which almost inevitably brings them prematurely to the grave. Living as the majority of the people do, at complete variance with the laws of nature, it must be apparent to all that, sooner or later, nature will revenge herself. Hence we find that persons who indulge to excess in the use of very rich or indigestible food or intoxicating drinks, invariably pay a heavy penalty in the end. The stomach becomes disordered and refuses to act; the liver fails to perform its functions, dyspepsia and its attendant evils follow, and still the suffering individuals persist in clinging to the thoroughly exploded idea of the past. Dr. SCHENK'S medicines are recommended to all such. They bring sure and certain relief wherever they are used as directed, and all that is necessary to establish their reputation with every ailing man or woman in the landis a fair and impartial trial of them. Let those who are skeptical on this point, and who have permitted interested persons to prejudice them against these now celebrated remedies for consumption, discard their prejudices, and be governed by the principles of reason and common sense. If the system is disordered depend upon it, in nine cases out of ten the seat of the disorder will be found in the stomach and liver. To cleanse and invigorate the stomach and to stimulate the liver to healthy action, use

SCHENCK'S MANDRAKE PILLS.—The daily increasing demand for these pills in the best evidence of their value. Thousands upon thousands of boxes are sold daily. Why? Simply because they act promptly and efficiently. Invalids who may not find it convenient to call on Dr. SCHENCK in person are informed that full and complete directions for use accompany each package of the

MANDRAKE PILLS, PULMONIC SYRUP AND SEAWEED TONIC.—These medicines will cure consumption unless the lungs are so far gone that the patient is entire ly beyond the reach of medical relief.

It may be asked by those who are not familiar with the virtues of these great remedies, "How do Dr. Schenck's medicines effect their wonderful cures of consumption?"

The answer is a simple one. They begin their work of restoration by bringing the stomach, liver and bowels into an active healthy condition. It is food that cures this formidable disease. SCHENCK'S MANDRAKE PILLS act on the liver and stomach, promoting healthy secretion, and removing the bile and slime which have resulted from the inactive or torpid condition of those organs, and of the system generally. This digests the food of the body, and the consequent accumulation of the unhealthy substances named prevent the proper digestion of food, and, as a natural consequence creates disease, which results in prostration and finally in death.

SCHENCK'S PULMONIC SYRUP and SEAWEED TONIC, when taken regularly, mingle with the food, and the digestive organs, make good and rich blood, and as a natural consequence, give flesh and strength to the patient. Let the faculty say what it may, this is the only true cure for consumption. Experience has proved beyond the shadow of a doubt, and thousands are to-day alive and well, who a few years since were regarded as hopeless cases; but who were induced to try Dr. SCHENCK'S remedies, and were restored to permanent health by their use.

One of the first steps the physician should take with a consumptive patient is to invigorate the system. Now how is this to be done? Certainly not by giving medicines that exhaust and enervate—medicines that impair instead of improve the functions of the digestive organs Doctor SCHENCK'S medicines cleanse the stomach and bowels of all substances which are calculated to irritate or weaken them. They create an appetite—promote healthful digestion—make good blood, and, as a consequence, they invigorate and strengthen the entire system and more especial ly those parts which are diseased If this cannot be done, then the case must be regarded as a hopeless one.

If the physician finds it impossible to make a patient feel hungry, if the deceased person cannot partake of good nourishing food and properly digest it, it is impossible that he can gain in flesh and strength; and it is equally impossible to bring a patient to this condition so long as the liver is burdened with diseased bile, and the stomach laden with unhealthy slime.

Almost the *first* report made to the physician by a consumptive patient is that he will prescribe medicines that will allay the cough, night sweats and chills, which are the sure attendants on consumption. But this should not be done, as the cough is only an effort of nature to relieve itself, and the night sweats and chills are caused by the diseased lungs. The remedies ordinarily prescribed do more harm than good. They impair the functions of the stomach, impede healthy digestion, and aggravate rather than cure the disease.

There is, after all, nothing like facts which to substantiate a position, and it is upon facts that Dr. Schenck's relies. Nearly all who have taken his medicines in accordance with his directions have not only been cured of consumption, but, from the fact that these medicines act with wonderful power upon the digestive organs, patients thus cured speedily gain flesh. Cleansing the system of all impurities, they lay the foundation for a solid, substantial structure. Restoring these organs to health, they create an appetite. The food is properly assimilated; the quantity of blood is not only increased, but is made rich and strong and in the face of such a condition of the system all disease must be banished.

Full directions accompany each of the medicines, so that it is not absolutely necessary that patients should see Dr. SCHENCK personally, unless they desire to have their lungs examined. For this purpose he is at his office, No 15 North Sixth St., corner of Commerce, Phila., every Saturday, from 9 A. M. until 1 P. M.

Advice is given without charge, but for a thorough examination with the Respirometer the charge is $5.

ADDRESS

TO THE

NERVOUS AND DEBILITATED.

WHOSE SUFFERINGS HAVE BEEN PROTRACTED

FROM HIDDEN CAUSES, AND WHOSE

CASES REQUIRE

PROMPT TREATMENT.

TO RENDER EXISTENCE DESIRABLE

If you are suffering, or have suffered, from involuntary discharges, what effect does it produce upon your general health? Do you feel weak, debilitated, easily tired? Does a little extra exertion produce palpatation of the heart? Does your liver, or urine organs, or your kidneys, get out of order? Is your urine sometimes thick, milky or flocky, or is it ropy on settling? Or does a thick scum rise to the top? Or is a sediment at the bottom after it has stood awhile? Do you have spells of short breathing or dyspepsia? Are your bowels constipated? Do you have spells of fainting, or rushes of blood to the head? Is your memory impaired? Is your mind constantly dwelling on this subject? Do you feel dull, listless, moping, tired of company, of life? Do you wish to be left alone, to get away from everybody? Does any little thing make you start or jump? Is your sleep broken or restless? Is the lustre of your eye as bright? Do you enjoy yourself in society as well? Do you pursue your business with the same energy? Do you feel as much confidence in yourself? Are your spirits dull and flagging, given to fits of melancholy? If so, do not lay it to your liver or dyspepsia. Have you rest less nights? Your back weak, your knees weak, and have but little appetite, and you attribute this to dyspepsia or liver complaint?

Now, reader, self-abuse, venereal diseases badly cured, and sexual excesses, are all capable of producing a weakness of the generative organs. The organs of generation, when in perfect health, make the man. Did you ever think that those bold, defiant, energetic, persevering, successful business men are always those whose organs are in perfect health? You never hear such men complain of being melancholy, of nervousness, of palpitation of the heart. They are never afraid they cannot succeed in business; they don't become sad and discouraged, they are always polite and pleasant in company of ladies, and look you and them right in the face—none of your downcast looks or any other meanness about them. I do not mean those who keep the organs inflamed by running to excess. These will not only ruin their constitution, but those they do business with or for.

How many men, from badly cured diseases, from the effects of self abuse and excesses, have brought about that state of weakness in these organs that has reduced the general system so much as to induce almost every other disease—idiocy, lunacy, paralysis, spinal affections, suicide, and almost every form of disease humanity is heir to—and the real cause of the trouble scarcely ever suspected, and have doctored for all but the right one.
